- **Medium secure**
- **Low secure**

Answer: Please see table below.

Type of ward	Average length of stay in 2019 (days)

Please note that the Trust does not have “locked rehab” wards. This information is not held and therefore not disclosable.

Question 2. Can you please also provide average length of stay and average HONOS score at admission and discharge for the following specialities for 2019

- **General adult mental health**
- **Rehabilitation and Recovery**
- **Personality disorder**
- **Eating disorder**
- **CAMHS**

Answer: Please see table below:

Please note that the Trust does not have “eating disorder” wards. This information is not held and therefore not disclosable.

The Trust is currently undergoing data migration and unfortunately, will not be able to retrieve the information regarding CAMHS average length of stay until December 2020.

That being the case, we will be unable to begin to process this part of your request until the migration is complete. We therefore anticipate to
