Our reference: FOI DA3783

I am responding to your request for information received 26 April 2021. This has been treated as a request under the Freedom of Information Act 2000.

When an organisation receives a request for information under the Freedom of Information Act, it is allowed under the Act to apply a blanket exemption to this where it has concluded that providing a response would take in excess of eighteen hours. When the cost of compliance and extracting information would exceed eighteen hours, a cost limit of £450 can be applied. This is explained in Section 12 of the Freedom of Information Act 2000 and is based on a rate of £25 per hour, regardless of the rate of pay of any individual involved in the retrieval of requested information, and equates to eighteen hours work.

Having reviewed your request, the Trust has noted that it would not be able to all the information requested within the eighteen hours specified in the Freedom of Information Act 2000.

In order to assist you with your request, I have advised below the timing each question would take in order to assist you to refine your request. If you wish to refine your request to comply with the 18 hour time limit, please do get in touch

I am now enclosing a response which is attached to the end of this letter. Please do not hesitate to contact me on the contact details above if you have any further queries.

Yours sincerely,

Keshia Harvey
Information Governance Manager
