Request:

I would like to narrow down my request, please. I would like to ask for details on the number of complaints received over drug offences in your mental health centres. This relates to visitors, staff or patients. I would like this request to be broken down into each centre the complaint was registered and I would also like to know whether the Trust has a policy around drug offences committed within its premises. If the trust has, please, explain to me what it is and what is done when staff, visitors or patients are caught using drugs.

I would like to receive this information on a spreadsheet. If you could please put the information into columns named as such: explanation of the complaint, the date it occurred, the decision made by the mental health centre to overcome it, if the same thing happened again.

Please feel free to fill the spreadsheet with new columns or rows where you seem fit, for example if there are any numbers and/or name used to classify the complaint.

By “drug offences”, I mean staff, visitors and patients who were caught smoking cannabis or doing any sort of drugs on the trusts' premises, people who complained about smelling weed smoke, for example, and also patients bringing back drugs like cannabis and cocaine when they are on leave but still under the care of the hospital.

Answer: The Trust does not hold all the information in your request centrally. In order to establish the number of “drug offences” complaints, staff would need to scrutinise each complaint record. That being the case, the Trust is unable to comply with your request as the cost of compliance and extracting your exact requirements would exceed the appropriate cost limit of £450 which is specified in Section 12 of the Freedom of Information Act 2000. This is based on a rate of £25 per hour, regardless of the rate of pay of any individual involved in the retrieval of requested information, and equates to 18 hours work.

The Trust does have a “Policy for Dealing with Disposal of Illicit Drugs and Alcohol” which can be found on our website:
