Request:

Please provide me with a copy of your data protection impact assessment for the Trust's use of Skyguard.

Answer:

The Trust does not have a data protection impact assessment for Skyguard which has been in use since April 2016. This was before the introduction of the General Data Protection Regulation (GDPR). Since GDPR came into force, we routinely undertake data protection impact assessments for all high risk or large scale processing of personal data but we have not retrospectively undertaken data protection impact assessments for processing prior to May 2018. We therefore are unable to comply with your request as we do not hold this information.
