

REPORT TO THE TRUST BOARD - PUBLIC
29 JUNE 2017

Title	People Participation Committee 15 June 2017 – Chair’s report
Committee Chair	Marie Gabriel, Trust Chair

Purpose of the Report:

To bring to the Board’s attention key issues discussed at the PPC meeting held on 15 June 2017.

Issues to be brought to Board’s attention:

The following three issues were suggested by the Committee:

- That the improvements being considered for Consultant recruitment should consider the availability of young people, for example to hold panels outside of school hours.
- That a QI project on improving the involvement of young people across the Trust should be considered. This should include specific, child focused work on stigma.
- That ELFT's approach to People's Participation has been summarised as a rights based approach that recognises the expertise of people with lived experience and which has a focus on improvement and recovery.
