This is a training manual which has been created to help guide users to the new Envoy data reporting system. This manual contains a step by step guide on how to login into the system find the relevant information required to support you and your service.

Envoy is a data system which holds all relevant information collected by users completing patient experience surveys. This system allows people to analyse and investigate their data to identify any trends or patterns.

1. Login

- First step will be to email the Q.A team elft.qa@nhs.net and request a login. Once you have done this you will be sent some details via healthcare communications which will contain on two separate emails your username and password.
- Once you receive this information it is important to access the Envoy system www.trustenvoy.co.uk via google Chrome
Enter your username – this is your Trust email address
Enter your password
Ensure you always access the system this way avoiding internet explorer.
- Ensure you tick the box below ‘remember me’. This will ensure your computer recognises you and accessing the system is easier.

Username

Password

Remember me?

[Forgotten Password](#)

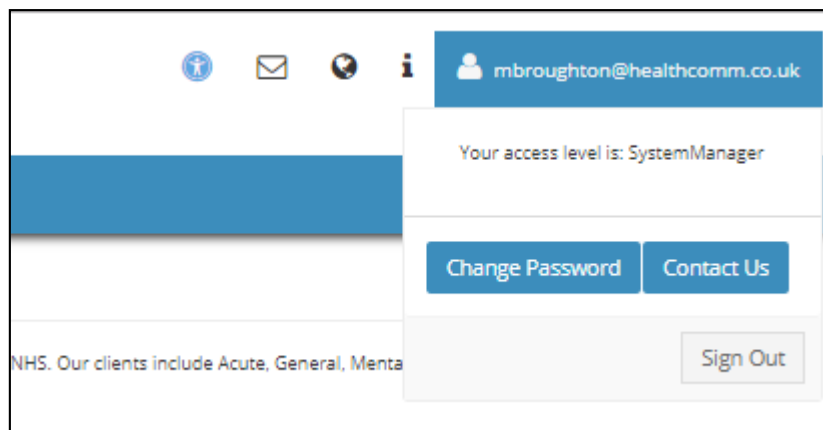

2. Bookmarking the Website

You may need to use the Envoy site daily, so we suggest that you add the site address to your browser bookmarks or favourites. You may also consider saving a shortcut on your desktop. This is very simple and easy to do.

If you are having difficulty doing this, please consult your IT department or refer to your browser user guide.

3. Change password

- Click on your **username** in the top right corner of the screen
- Click on the **Change Password**

- Your New Password length is a minimum of 9 characters - 4 of which **MUST** be numbers
- Follow the simple onscreen instructions to create your own memorable password or click **“Generate”** password & click **“Change Password”**
- A successful change will log you out and request that you log in with your new details

Password Successfully Changed

Your password has been changed. Please [click here to log in](#)

If you continue to experience difficulties accessing your account, please contact us on 0845 9000 890* and ask for the Envoy Support Team or email support@healthcomm.co.uk.

- If you forget your password, click on the **“Forgotten Password?”** link on the login page.
- You will then receive an automated email with the password upon request.

The screenshot shows the Envoy Messenger login interface. At the top left is the Envoy Messenger logo. To the right is a navigation bar with icons for Text, Voice, Agent, Online, Post, Email, and Kiosk. Below the navigation bar are two input fields: 'Username' and 'Password'. At the bottom of the form are two buttons: 'Log on' and 'Forgotten Password' (which is highlighted in yellow).

4. Landing page

- Once you have logged in successfully you will be presented with this landing page.
- You will only need to enter the portal via the patient experience page. Please click on this box to review information regarding patient experience.

welcome to Envoy messenger

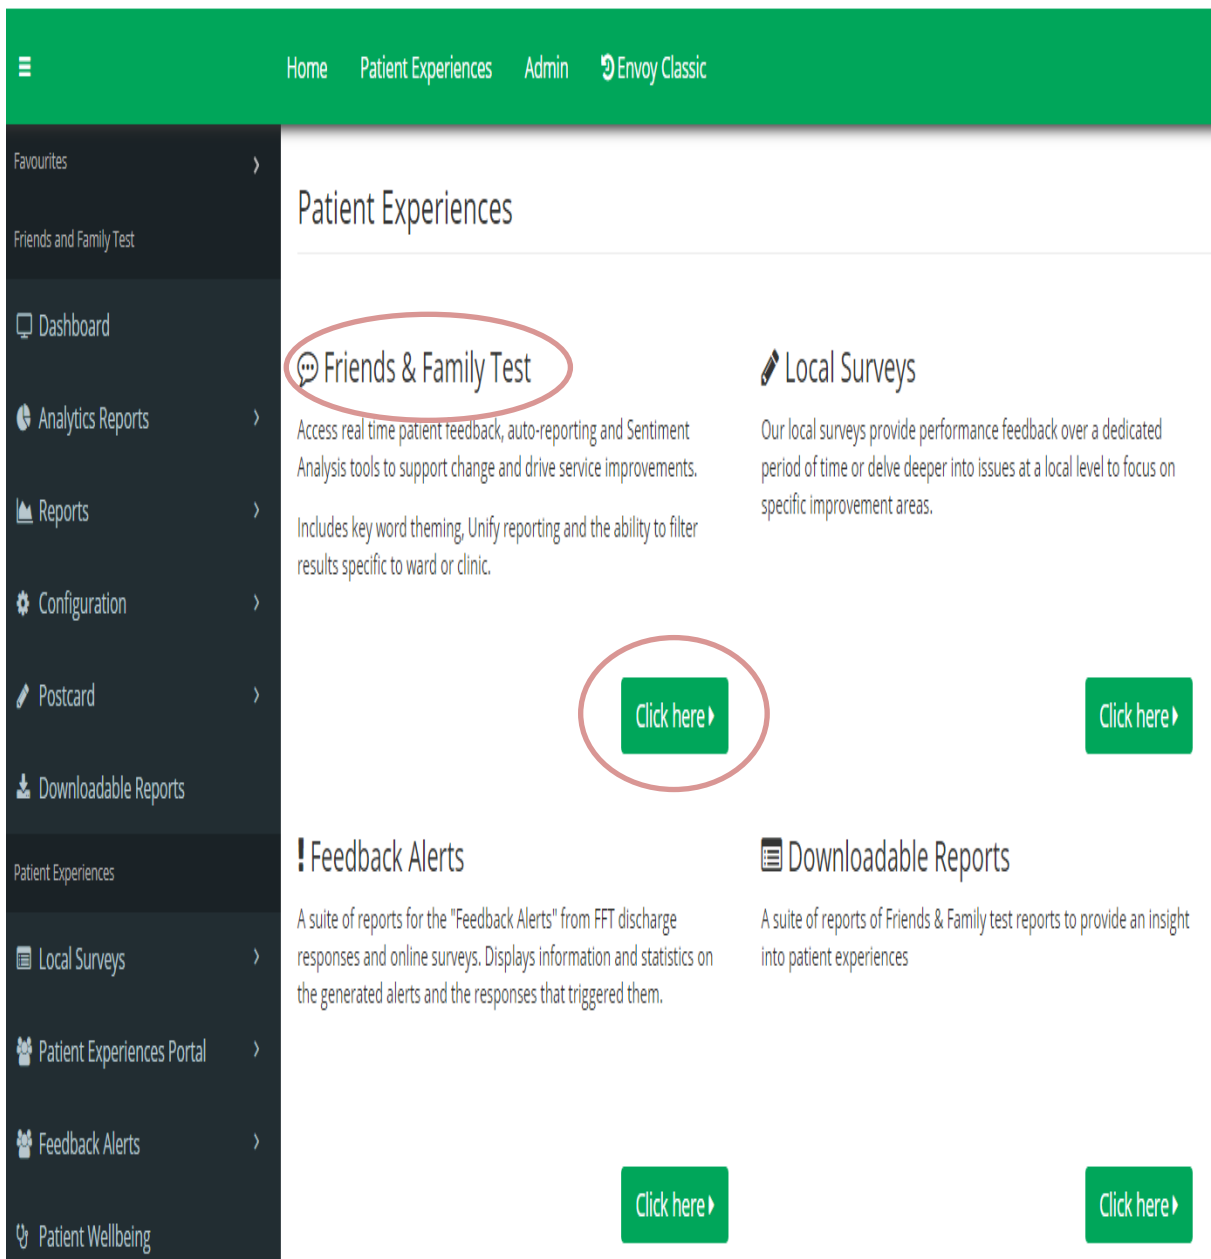

Healthcare Communications are market leaders in patient communications software, providing Envoy Messenger services to 104 NHS Trusts within the UK. Established in 2000 we have securely sent over 100 million patient messages, delivering Appointment Management and Patient Experiences software to the NHS. Our clients include Acute, General, Mental Health and Community NHS Trusts, Health Boards, Dental and GP practices.

Please make a selection from the product options below:

 <p>Envoy Messenger is our leading communications software that provides messaging options to over 104 Trusts and Health Boards across England, Wales and Northern Ireland. Over 100 million messages have been securely sent to patients via Voice, SMS, Agent Calls, Email, Online and Letters.</p> <p>Return to Envoy Classic</p>	 <p>Designed exclusively for the NHS with direct input from front line staff, so every feature exists to drive patient experiences and increase efficiency.</p> <p>Envoy automatically captures responses, analyses and reports on results in real time. Supports The Friends and Family Test, Local Surveys, Mystery Shoppers and bespoke Trust surveys with auto reporting and action plan capabilities.</p> <p>Click here</p>	 <p>A powerful way to capture The Friends and Family Test staff feedback, Trust staff surveys and the NHS annual staff survey data. Envoy collates responses from all communications channels used and then reports on results to provide a real time picture of staff experience.</p> <p>Click here</p>

5. Patient experience data

- Here is the landing page for all patient experience data from the Envoy system.
- There are a few different options to select from to find data relevant to you.
- This page will be main point of accessing all data; it is advisable to save this page for reference and ease of access. Envoy allows you to 'Star' or 'Favourite' a page if you select this option it will be stored in your favourite selection, details of this are found on page 13 & 14.

10. Filtering Data

- Once you have selected the dashboard Tab you will be presented with the below
- It is important to select the data criteria carefully, you can select from the following.
 - Date; From → to
 - Survey Type → ensure this is selected as FFT Survey
 - Type of survey; this is filtered by adult Prem, community ETC
 - Location → is a specific service within a directorate
- Once you are happy with your selection criteria then select the run report function to generate your data set

11. Understanding your report

- You will be presented with the below graph it details the following information
- Surveys Started, this is the number of surveys where people have not exceed the first page of the survey.
- Incomplete surveys, is the number of surveys people have started but not completed them all of the way through.
- Completed surveys this is the number of surveys which have been completed from start to finish.
- If you wish to extract this data in an excel format you can do by pressing the Export Answers tab.
- There is also a graph which shows you how many surveys have been done the time selected in the search function.

12. How to collect qualitative information

In order to collect and disseminate all information which has been collected by individual services as well as a directorate you will need to run the Crystal report. This can be done by selecting downloadable reports on the left hand side. You will then need to run reports as per the below

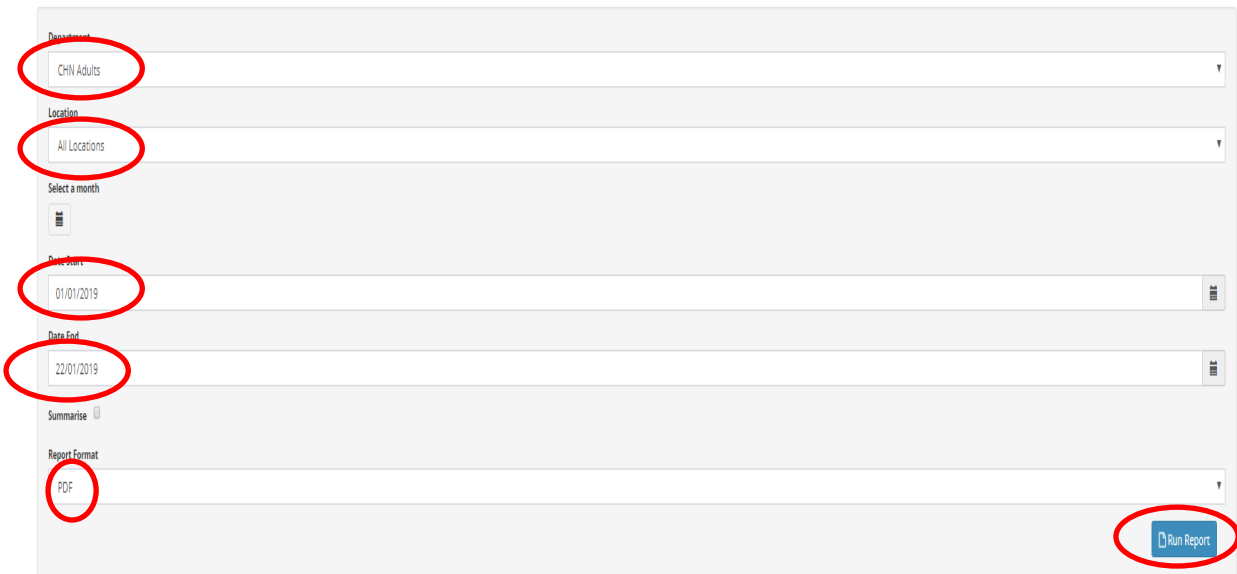

Once you select this you will then need to select FFT Service report from the drop down menu, then click display report options

Crystal Report: Run

Once you have selected this you will then need to complete the relative dropdown options below, once you have selected your team/service, the date and the format you want the survey in click on the run report.

This will generate all of the qualitative information for that directorate for you to share

15. Useful tips

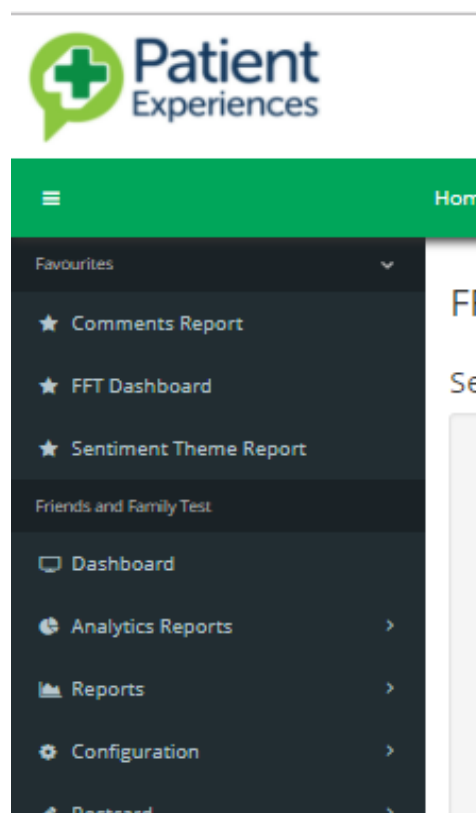

On most screens, you will see the following icons

- ? Click on the ‘?’ icon for a useful on screen tour guide and select tour guide from the menu

- Add your most visited pages to your Favourites by clicking the star. These will then appear in the favourites list on the left-hand menu. You can then access these pages within a single click of logging in.

- Saved searches: if you find yourself running the same search criteria, you can add this as a saved search by clicking the heart symbol:
 - Set your search criteria and click search
 - Click on the heart symbol
 - Click save search
 - Name the search and click save

You can save multiple searches with differing criteria. To access your saved searches:

- When you're on the report you wish to run click the heart symbol
- Select the pre-saved search from your list
- Set your date ranges
- Click search

16. Support Details

For any further help or to discuss the website features further, please feel free to contact our support team via email at support@healthcomm.uk or call us on **0845 9000 890**.
