

## What our Schools have said....

**Tollgate Primary School** : 'I wanted to let you know of the amazing work of OT's are implementing at Tollgate Primary School. We have children that were in need of the OT's specialist services for a long time. So far they have clinically assessed and implemented some clear bespoke strategies to support the T.As with their practice. The team are also lovely to work with, open to ideas and suggestions. Ultimately its the lives of the children and their families that they are really impacting, I along with the school can universally say that we are extremely grateful for all their support and expert advise.'

**JFK School** : 'Teachers have taken on-board OT advice as we have seen a significant improvement in that class with the changes that have been made. Families too report how happy the children are to come to school.'

**Eastlea School** : 'The hub is an incredible resource of consummate professionals who can jump in at the deep end and land on their feet. They have already started to transform the support for students here.'
