	management of patient care across the transition between secondary/primary care.	
City and Hackney Recovery College app	Student portal app is for those students who would like to self-manage their bookings with the City and Hackney Recovery College.	09/05/2023
Predict an admission in the Next 30 Days within Adult Mental Health using Progress Notes	To test this approach, we have decided to look into the clinical notes of patients who ended up needing admission and comparing these with patients who approached acute / unscheduled, or crisis care but did not need acute psychiatric admission (control group) to identify specifiers on NLP that point towards hospital admission. We decided to analyse clinical notes 30 days prior to admission (whilst the patients were accessing care in the community).	18/05/2023
Agency/Bank Booking Digital Project	This proposal seeks approval to transition the Trust's existing Direct Engagement service to an alternative provider, in order to deliver significant reduction in service costs, reduced admin - delivered through a fully integrated platform - and enhanced user experience.	30/06/2023
INPHASE Project; Access to Datix Server	Use SFTP (supplier preference) to transfer the data from our Datix servers to their (InPhase) storage hosted in the Azure UK south Data Centre as part of the Datix data migration.	05/07/2023
Patient Held Record (Patient Knows Best)	PKB's primary purpose is to empower individuals in managing their care and providing them with seamless access to their medical records. In this context, consent is not the appropriate means to achieve this goal. Instead, we rely on legitimate interest as the lawful basis for processing patient data.	05/07/2023
Point of Care Testing	Enables clinicians to perform diagnostic blood testing at the patient's bed side, providing fast, accurate diagnostic information closer to where care is delivered.	05/07/2023
Revive Digital Recycling/Disposal	To allow the disposal of condemned IT equipment.	05/07/2023
Medii App for people who have a Learning Disability	A digital application and clinicians' dashboard to assist with monitoring the medical, social and mental wellness of users with learning disabilities.	06/07/2023
