

FREE Will Writing Service; Information Webinar. No cost, no excuse

Making a Will is one of those things that many people put off. However, having a Will in place is an important way to protect your family and loved ones at the most difficult of times. It can also head off disputes about how your possessions should be divided and save on inheritance tax.

A Will is a legally binding document which tells everyone what you want to happen to your money, possessions and property – collectively called your 'estate' – after you die.

Estate planning and will writing specialists **Dunham McCarthy** are able to offer you a free will writing service to help you plan for your future, protecting your family and loved ones.

These webinars will give basic information on wills, why you should have one and the scope of such documents. They are intended as an overview and will not deal with personal circumstances.
