Request:

To minimise the workload on your side, we would be grateful if the data could be provided in a machine-readable format (for example, CSV or Excel). We kindly request that all codes are supplied to a minimum of four characters where possible. We understand that some codes are only three characters in length, so please include these where applicable.

Question 1: Dataset 1: ICD-10 Diagnosis Data

Please supply the following information for each hospital:

- Data from 2022 up to the latest data available, by calendar year
- Number of cases per primary diagnosis (ICD-10 code A000 to Q999 inclusive)
- Hospital name and postcode
- Include activity outsourced to the private sector (hospital name and postcode)

Answer: Please see appendix 1.

Please note that transfer diagnoses have also been included; however, where the number of cases per primary diagnosis is the same for a given client, these have been counted only once.

Question 2: Dataset 2: OCPS Procedures / Surgery Data

Please supply the following information for each hospital:

- Data from 2022 up to the latest data available, by calendar year
- Number of cases per procedure / surgery (OPCS code A000 to Z999 inclusive)
- Hospital name and postcode
- Include activity outsourced to the private sector (hospital name and postcode)

Answer: The Trust has reviewed question 1 of your request for information under the Freedom of Information Act (FOI) 2000.

Section 1(1) of the Freedom of Information Act 2000 states:

Any person making a request for information to a public authority is entitled—
(a) to be informed in writing by the public authority whether it holds information of the description specified in the request, and
(b) if that is the case, to have that information communicated to them.

East London NHS Foundation Trust is primarily a Mental Health and Community Health Trust and as such does not provide surgical services. The Trust is therefore unable to provide a response.

We promise to work together creatively to: learn 'what matters' to everyone, achieve a better quality of life and continuously improve our services.
We care . We respect . We are inclusive
