

# EPMA MAP Guide CMM v8

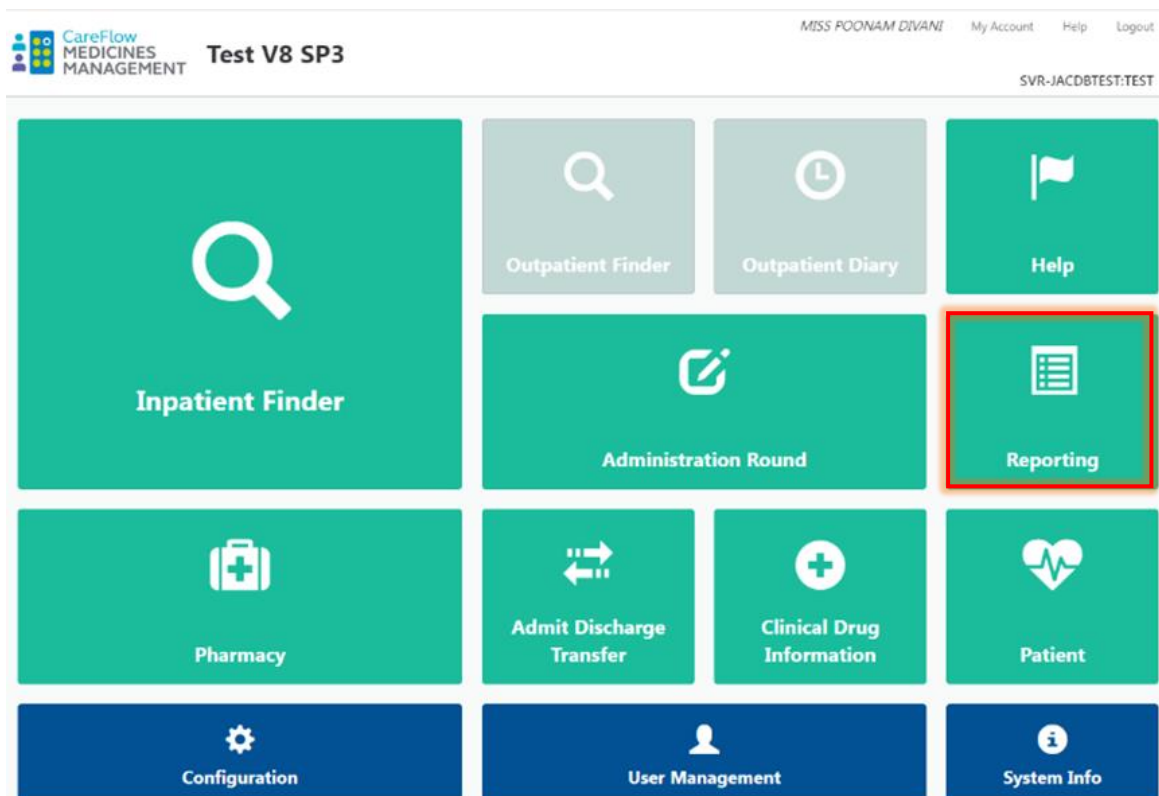

## Medicines Administration Profile (MAP) Guide

The MAP report will create a paper copy showing what medication the patient has received in the previous day, 7 days, or since admission. The need to print paper charts may arise due to a number of issues such as external request for information, transferring a patient to a ward that is yet to have EPMA deployed, the transfer of a patient to a General Hospital, or if the EPMA system goes offline.

Log on to **EPMA** using the desktop icon below using your username and password.

From the home screen below, click on the **REPORTING** option.

You need to ensure you **Select** the **MAP** option on the **TOP LEFT** side of the screen. Looking at the screenshot below, we're able to select a few different options. We can print MAP reports per:

- Consultant (i.e. all of the specified Consultant's patients)
- Ward (i.e. all of the patients on the specified ward)
- Patient (i.e. on an individual patient basis)

We're also able to specify the 'Charting Period' meaning we can see what medication the patient has received today and:

- the previous day
- the previous 7 days
- since admission (please note this option could result in a significantly large amount of paper being printed. This could also crash the system).

Once we're happy with the options we've selected, click on PRINT REPORT in the bottom right-hand corner.

The screenshot shows the 'Print MAP Report' interface. The top navigation bar includes 'Home', 'v2018.1SP1 TEST', 'Mr Lewis Pope', 'My Account', and 'Logout'. On the left, a sidebar contains 'MAC Report' and 'MAP Report', with 'MAP Report' highlighted in a red box. The main content area is titled 'Print MAP Report' and includes a 'Communication zone' field. Below this is a 'HELP' section. The 'Printing Options' section includes a 'Document Name' field with the value 'P190320162223' and an 'Output' section with radio buttons for 'Paper' (selected) and 'Save without printing'. The 'MAP Options' section, highlighted in a red box, contains three dropdown menus for 'Consultant', 'Ward', and 'Group', each with a 'Please select' prompt and a dropdown arrow. Below this is a 'Discharged' radio button. The 'MAP Options (Patient Filter)' section has radio buttons for 'All Patients' and 'Selected Patient' (selected), with a 'Find Patient' button next to it. The 'Clinical Notes Options' section has checked boxes for 'Patient Notes' and 'Order Notes'. The 'Charting Period (today, including)' section, highlighted in a red box, has radio buttons for 'Previous Day' (selected), 'Previous 7 Days', and 'Admission'. At the bottom right, there are 'Cancel' and 'Print Report' buttons, with 'Print Report' highlighted in a red box. The footer of the page shows the 'JAG Medicines Management v2018.1' logo.

Once you click PRINT REPORT, a new tab will open with a printable copy of the MAP report. This can be printed or saved as a PDF copy. This will look as per the screenshot below.

Patient: TEST, Test  
 Hospital No: 26031985  
 Date of Birth: 26-Mar-1985  
 Allergies: SALICYLATES

National No:

Weight: 70.000 kg  
 Height: 108 cm  
 Body Surface: 1.35 sq m

Date of Report: 20-Mar-2019 at 16:36 Page 8 of 44  
 Type of Report: Previous Day  
 Requested By: LP  
 Current Status: On Ward Test Ward  
 Under the Care of: Dr TestDoctorConsultant TestDoctorC  
 Admitted On: 4-Dec-2018

Order Note(s) exist
