Request:

Question 1: I am currently conducting some comparative work around incident occurrence rates across mental health services and was hoping to obtain a broader range of figures to compare against our own internal trends. I am unsure whether this is the correct department to contact regarding this request, so if not, I would greatly appreciate it if you could direct me to the most appropriate team or individual within your trust.

I would be grateful if you could provide any available information regarding incident rates within the following service areas:

- CAMHS Inpatient Services
- IDD Community Services
- IDD Inpatient Services

Figures alone would be perfectly acceptable; however, a more detailed breakdown (if available) would also be extremely helpful.

The timeframe I am looking at is from 2024 to 2026.

Answer: CAMHS Inpatient Services - number of relevant incidents raised for the period 01/01/2024 - 31/05/2026

Learn from Patient Safety Events (LFSPE) - 4180 incidents
Non-Learn from Patient Safety Events (Non-LFPSE) - 1066 incidents

We do not have IDD Community or Inpatient services.

We promise to work together creatively to: learn 'what matters' to everyone, achieve a better quality of life and continuously improve our services.
We care . We respect . We are inclusive
