Request:

Question 1: The name of the company or contractor currently responsible for fire-door inspection, maintenance, and compliance across your estate (including acute sites, community sites, mental health facilities, and administrative buildings).

Answer: The Trust has reviewed question 1 of your request for information under the Freedom of Information Act (FOI) 2000.

Section 1(1) of the Freedom of Information Act 2000 states:

*Any person making a request for information to a public authority is entitled—
(a) to be informed in writing by the public authority whether it holds information of the description specified in the request, and
(b) if that is the case, to have that information communicated to them.*

East London NHS Foundation Trust does not record the information requested. The Trust does not have a specific fire-door related contract as these services and responsibilities are part of the overall Trust Hard FM contract. The Trust is therefore unable to provide a response.

Question 2: The start date, end date, total contract value (if available), and any extension periods associated with the current fire-door compliance contract.

Answer: The Trust has reviewed question 2 of your request for information under the Freedom of Information Act (FOI) 2000.

Question 4: The mandatory accreditation, certification, or competency requirements for suppliers delivering fire-door inspection or compliance services (e.g., FDIS, BM TRADA, IFC, UKAS-accredited schemes, or internal NHS competency standards).

Answer: Not applicable as this falls under the Trust's Hard FM contract.

Question 5: The process a new supplier must follow to be considered for future fire-door inspection or compliance work, including:

- **Supplier registration requirements**
- **NHS procurement portal or e-tendering system used (e.g., Atamis, Proactis, Jaggaer)**
- **Approved supplier list requirements**
- **How to receive notifications of future tender opportunities**
- **Any pre-market engagement or supplier-day event**
