Request:

Question 1: Oxygen Insights processes this data, alongside information from other public bodies, to provide a clear picture of public sector spend. It helps buyers share best practice and make smarter use of funds, creates new opportunities for suppliers to work with the public sector, and supports the estimation of Scope 3 carbon emissions, which public bodies use to plan and deliver their CO2 reduction goals.

To build the most complete picture, we kindly request your transparency data, under the Freedom of Information Act 2000, for all transactions over £25,000 from January 2026 to date.

Please provide the data in CSV format, including the date, value, and recipient of each transaction, along with the procurement category or description. If preferred, please upload this information to your website and kindly advise us when complete so that we can access it
