**Answer:** The Trust has reviewed question 1 of your request for information under the Freedom of Information Act (FOI) 2000.

Section 1(1) of the Freedom of Information Act 2000 states:

*Any person making a request for information to a public authority is entitled—  
(a) to be informed in writing by the public authority whether it holds information of the description specified in the request, and  
(b) if that is the case, to have that information communicated to them.*

East London NHS Foundation Trust is primarily a Mental Health and Community Health Trust and does not have radiology services and is therefore unable to provide a response.

**Question 2:** For your diagnostic reporting, please indicate the split between studies reported and studies currently awaiting reporting (your backlog), as counts or as a percentage, with a total and, if possible, a breakdown by modality.

| Modality               | Studies reported (no. or %) | Awaiting reporting / backlog (no. or %) |
|------------------------|-----------------------------|-----------------------------------------|
| TOTAL (all modalities) |                             |                                         |
| CT                     |                             |                                         |
| MRI                    |                             |                                         |
| X-ray / plain film     |                             |                                         |
| Ultrasound             |                             |                                         |
| Nuclear medicine / PET |                             |                                         |
| Other                  |                             |                                         |
